A technical drawing of a corner. A vertical line and a horizontal line meet at a right angle. A horizontal dimension line is drawn to the left of the vertical line, with a tick mark at the corner. A vertical dimension line is drawn below the horizontal line, with a tick mark at the corner. Two circles with a cross inside are positioned to the right of the vertical line and above the horizontal line. A horizontal dimension line with arrows at both ends is drawn below the horizontal line, extending from the vertical line to the right. Two vertical dimension lines are drawn below the horizontal line, one from the vertical line to the first circle, and another from the first circle to the second circle. The drawing is labeled with dimensions in inches and centimeters.
