

HOW TO ASSEMBLE

PAGE 1 / 2

How to cut the pieces : Notice that #1 pattern had to be separated in two parts to fit on A4 paper. you should put the two parts beside each other through joint edge and stick them together with a tape glue to reach #1 just like what you can see on next page in the charts of instructions. All needed parts are considered in Pattern file on 9 pages. cut all pieces on leather except #9 and #10. you should cut these two pieces on a layer of fabric to use as lining. you will also need a rectangular leather piece for the wrist strap in size of 50 cm long and 1.5 cm wide. Also two straps in sizes of 50 and 70 cm long and 1.5 cm wide for neck or shoulder strap.

How to sew: First sew #8 on #2 and then stick a 10x10 cm layer of fabric behind lower card slot which makes a pocket for it and then stick a layer of fabric behind upper card slot. connect male snap fasteners on #2 and female of them on #3. also connect female snap fasteners on #1 right side and male of them on #1 left side. now stick #7 back to back of #2 and connect 3 hole rivets to the holes of them. then for the left side, stick #5 on top of #10(fabric lining) and stick #6 on top of #9(fabric lining). then put #4 on #10 and then put both of them on #9 and sew (a) line. all #(4,5,6) will fit on #9 and between them we will have card pockets. put #9 back to back of #1 and sew (e) edge. do the same steps for the right side to sew #(4,5,6) to the #(9,10) and then put them back to back of #1 and also put #2 on the surface of #1 and then sew the (s) line. then sew #3 on the surface side of #1 above #2 through (w) line while #3 and #1 are face to face. for the wrist strap you should fold the 50 cm strap to make a shape like a water drop (♡) and connect a swivel clasp to it's sharp head. connect the clasp to the middle hole of #2. also connect the 50 and 70 cm straps to the side holes through swivel clasp and connect straps to each other through the buckle. Good luck.
